DETAILED ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Cameron on May 31, 2007.

The application has been amended as follows:

32. (Currently Amended) A computer program product configured to provide secure communications with a communications unit, comprising:

a computer readable storage medium having computer readable program code embodied therein, the computer readable program code comprising:

computer readable program code for exchanging a key with the communication unit to generate a shared secret key and to receive input from a user;

computer readable program code for generating a passcode to be provided based on user input to the communication unit;

computer readable program code for generating and transmitting a first contribution to the shared secret key, and receiving a second contribution to the

shared secret key, the second contribution being generated by the communication unit;

computer readable program code for authenticating the received second contribution based on the passcode and a message authentication code; and

computer readable program code for establishing the shared secret key from at least the second contribution, based on whether the received second contribution is authenticated.

Allowable Subject Matter

2. Claims 1-32 are allowed.
3. The following is an examiner's statement of reasons for allowance:

It was not found to be taught in the prior art of authentication of a received passcode and a message authentication code, then establishing a shared secret key from the contribution based on the authentication.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
